

**Anthony Wakefield & Company**  
*Fine Art & General Insurance Brokers*

## Contents Insurance Calculator

This form is to help you establish the sum insured for general contents. It is a common mistake to under insure the value of all your household items, domestic appliances, furniture, furnishings, personal belongings and valuables. Use our calculator below to see how much cover you need.

Enter a cumulative replacement price for the items in your home and the form will automatically calculate your estimated sum insured.

---

**Please note:**

*This form is not for listing your Art & Antiques (art, antiques, jewellery and watches) as it falls under specified items which you will need to list on your proposal form.*

---
